English Wedding is an established, top 10 UK wedding blog. Our focus is on SEO to boost your position in Google search.

Use English Wedding as YOUR platform for regular backlinks to your website with guest blogging and brand or product showcases.

Guaranteed features

A unique wedding blog for SEO to benefit YOUR business

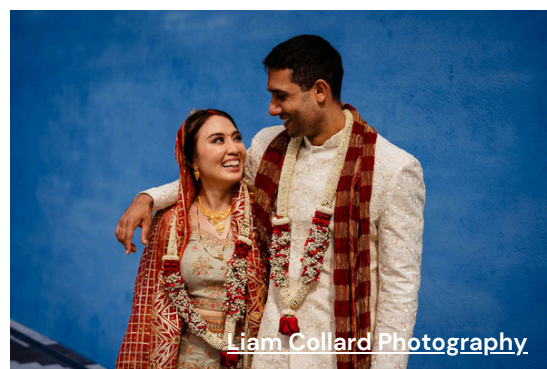

It's up to you to **send in regular content for us to share**. English Wedding membership packages include feature opportunities, not just a static page or listing. These can be product showcases, brand updates or advice blogs.

Each piece of content you publish on English Wedding can include links back to your website (home page and product pages), your blog, and even features on other websites and wedding blogs. This all helps to build your SEO and boost your rankings in Google search.

That's more than ANY other wedding blog will offer. Our prices are affordable too.

These member features are in addition to weddings and styled shoots, which anyone can submit for consideration to be featured. Only submissions from our Gold members are automatically accepted.

If you're a PR agency looking to share a guest blog on behalf of a client, we have a one-off upfront fee of £150 for a single guest blog.

The numbers

140k monthly Pinterest views and 17k followers

6k monthly website visitors (the majority of our visitors are from the UK)

9k instagram followers

Independent ownership

English Wedding is owned by its founder, Claire. English Wedding exists to champion the small, independent businesses that make our wedding industry a lovely, creative place. It's really important to give a voice to the wedding stationers, cake and floral designers, celebrants, entertainers and photographers – *that's why we're here.*
